Proposal

Date: June 18, 2020

Belle Realty
Lafayette, La.

Attn: Adam Abdalla

Job: Separate LUS Electric metering suite 103 from 101.

We are pleased to quote you the following Electrical Project:

1. Separate Electric Metering Suite 103 from Suite 101. Currently Suite 103 receives power from Suite 101.

Install new 250 amp, meter-pan, new Main Panel Board on rear wall of suite 103,
Re-feed power to existing main circuits presently located at rear wall of suite 103
by incorporating existing exterior main circuits into new panelboard, thus doing away
with existing Fuse Disconnects currently serving as mains.
Break and Patch Concrete to get new underground Secondary installed from LUS padmount
transformer to Suite 103 new Electric Meter.

Labor, Permits and Material ----- \$ 21,675.00

- Price does not cover any work deemed necessary on interior of Suite to accommodate Code and Fire Marshall requirements.

Price good for: 15 days.

Payment Terms: Payment is due net 15 days after dated invoice.

Terms of Sale: Purchaser or his duly authorized agent acknowledges delivery of items covered by this Work Order to the job above mentioned, and agrees to pay the purchase price in full as work is completed, if not paid by the following month of invoice, purchaser may be required to pay 1 ½% interest per month, 18% annually, any and all collection fees and cost for collection, in the event an attorney or collection agency is employed to impose collection.

Should you have any questions, or need additional information, Please do not hesitate to call.

Thank you,

Jamie A. Comeaux
