Password login:

Team members log in with their *username* (the part before @ in their email) and the password you set above. No external account needed.

Role differences:

Viewers can see everything but change nothing. Staff can edit data for their assigned property. Full Access users can edit all properties.

Property access:

Assigning a property is what actually lets someone in — leave it blank only if they should see every property. Access is granted the moment you set their password, and re-saving a row re-syncs it.

Billing:

Team members are never billed. Adding someone here does not create a subscription or a Stripe charge.

Session policy:

All sessions expire after 24 hours of inactivity. Users must re-authenticate after the timeout.

Tenant Portal Access

Portal Link

Invite Tenant

Invite tenants via email or generate access tokens for the self-service portal at [/tenant](#). Tenants can view leases, submit maintenance requests, and upload COI documents.
