ABOUT

Built by an Operator, for Operators

Asset Command is built by Adam Abdalla — a commercial real estate operator and former attorney who manages a 70,000 sq ft multi-tenant retail center in Lafayette, Louisiana. After a decade of practicing law in CRE transactions, he transitioned to hands-on ownership and operations.

This platform exists because the tools available to small and mid-market operators are either too expensive, too generic, or require a team of analysts to run. Asset Command brings institutional-grade intelligence to independent operators — no spreadsheet gymnastics required.

Powered by **Orange Ocean** — connecting traditional business operations with modern AI systems through legal precision, operational execution, and risk-aware decision-making.

THE AOR FRAMEWORK

Assets

What you own — real estate, businesses, holdings. Tracked, valued, and optimized.

Operations

How value is created daily — systems, leasing, automation, vendor management.

Risk & Governance

What protects and scales it — legal structure, compliance, insurance, AI risk.

PLATFORM

Everything You Need to Operate

NOI & Valuation

Real-time cap rate, NOI waterfall, and valuation modeling with live rent roll data.

Lease Intelligence

AI extracts every clause, date, and dollar from your leases. Auto-alerts on expirations.

Work Orders & Maintenance

Predictive maintenance scoring, vendor dispatch, and photo documentation.

Rent Collection & AR

Automated invoicing, late fee calculation, payment tracking, and aging reports.

7 Stakeholder Reports

One-click packages for operators, owners, investors, lenders, buyers, CPAs, and lawyers.

Governance & Compliance

Entity registry, loan covenants, regulatory calendar, and insurance tracking.

AI Concierge

Ask anything about your property in natural language. Instant answers from your data.

Mobile-First PWA

Full operations from your phone. Touch-optimized cards, swipe actions, camera upload.

QuickBooks Sync

Two-way sync with QBO. Invoices, payments, and chart of accounts mapped automatically.
